Scale Rules — Week 4+ (July)

- 50+ followers from a single boost → extend that post 2 more days at the same daily rate
- Cost-per-follow drops below Php 12 → increase that platform's weekly budget by Php 400

- Platform with lowest CPF across W26–W28 → gets the biggest share of July budget
- Post earns < 20 followers after boost → swap to a different platform or content slot next week
