Tito AI @TitoAlPH

Niche & Growth Plan

VERSION

June 2026 — Post-Audit

PREPARED BY

Jeff de las Armas

CHANNEL

@tito.aiph · TikTok · IG · Facebook

"The warm, relatable Tito who teaches everyday Filipinos to use AI for free — before it replaces their job."

Market Opportunity

12.7M

Filipino workers exposed to GenAI
— highest in ASEAN (ILO 2026)

42.4%

Filipino internet users use ChatGPT
monthly — 6th globally (Radar PH
2026)

1.9M

BPO employees who need to upskill
now (BSP 2025)

1.5M+

Filipino freelancers — underserved
by AI education (PIDS)

14.9%

Only — of small firms currently use
AI tools (PH AI Report 2025)

83%

Filipino students use AI — parents
haven't caught up (BusinessWorld
2026)

The gap: 12.7 million people are exposed to AI disruption. Almost none of them have a relatable, Taglish-speaking guide. **Tito AI is the first mover in this lane.**

Niche & Target Audience

This is not a tech channel. It is for: **freelancers, guro, BPO workers afraid of being replaced, nanays/tatays, small business owners** — everyday Filipinos who need AI but don't know where to start.

Fear + aspiration = share-worthy content. Every video either removes a fear ("hindi mahirap 'to") or delivers a visible win ("ganito ang resulta").

TITO AI'S MOAT

- **Taglish** — barrier to entry for foreign creators
- **"Libre lahat"** — removes the #1 objection (cost)
- **Warm tito brand energy** — no one else owns this positioning in PH
- **First mover** — algorithm surfaces Tito AI when Filipinos search "AI tutorial Tagalog"

Competitive Landscape

ACCOUNT	WHAT THEY DO	GAP VS. TITO AI
@jaygregorio_official	Business coach who also covers AI	Not a pure AI educator — broader lifestyle focus
@pinoytechai	Philippines-based AI content	More techie/formal tone — no community warmth
@pinoy.ai76	Filipino AI content	Small, unclear niche focus
@ai.explained, @futurepedia	Western faceless AI roundups	English only — not relatable to Filipino everyday life

Formats to avoid: Generic "Top 5 AI tools" lists, ChatGPT tips with no Filipino angle, "AI will take your job" hot takes with no solution.

Platform Strategy

 PRIMARY TikTok Discovery engine — viral reach Algorithm-favored education niche. Zero ad spend needed to go viral. 4x/week minimum. Best platform for first-touch growth.	 SECONDARY Instagram Authority + depth — convert lurkers Reels + Carousels drive saves. 25–34 urban professionals. Best for follower conversion and authority building.	 SUPPORT Facebook Paid boost + community Lower organic reach but cheapest PH CPM (65–75% cheaper than US). Best for boosting proven content to wider Filipino audience.

 **Critical fix:** Both Facebook personal profiles must be converted to a single Facebook Page — personal profiles cannot run paid ads or access analytics.

Weekly Posting Schedule

DAY	PLATFORM	FORMAT	CONTENT TYPE
Monday	TikTok + IG	AI Tip Reel (30–60s)	Quick tool tip — talking head
Wednesday	TikTok + IG	Demo Reel + Carousel (60–90s)	Screen record + Taglish voiceover
Thursday	TikTok	Trend reaction or AI news	Commentary + screen record
Saturday	Instagram	Reel	Before/after productivity story
Anytime	Facebook	Cross-post	Wednesday carousel to FB Page

Cross-posting rule: All TikToks → upload natively to Instagram Reels (same video, adjusted caption). Never use TikTok cross-post link — native uploads get more reach.

Content Pillars

#	FORMAT	PLATFORM	WHY IT CONVERTS	HOOK TEMPLATE
1	Tool demo — screen record	TikTok, IG Reels	High watch-through; saves drive algorithm	"I used AI to do this in 5 mins"
2	Comparison — tested X tools	TikTok, IG Reels	Trust-building; high share rate	"I tested 5 AI tools so you don't have to"
3	Before / after productivity	IG Reels, TikTok	Emotional hook; relatable	"3 hours of work → 5 minutes with AI"
4	Carousel — tools for [job]	IG, Facebook	High saves; shareable to groups	"5 AI tools para sa Filipino freelancers"
5	AI news reaction	TikTok, IG Stories	Trend-riding = organic reach spike	"ChatGPT just changed everything — here's why"

PILLAR BREAKDOWN

- **Pillar 1 — Tool Demo (Mon / Wed):** Highest save rate. Core educational content. "Paano gamitin ang Claude para sa negosyo mo — libre"
- **Pillar 2 — Before / After (Sat):** Emotional, shareable, high retention. "3 oras ng trabaho → 5 minuto gamit ang AI"
- **Pillar 3 — Fear → Reassurance (evergreen):** High anxiety = high engagement. "Hindi ka papalitan ng AI. Papalitan ka ng taong gumagamit ng AI."
- **Pillar 4 — Everyday Filipino Life (Fri):** Warmth + identity. Builds community. Guro, nanay, negosyante stories.

Hook Formula

Every video must open in **second 1** with one of:

1. **Fear hook** — "Kung BPO worker ka, pakinggan mo 'to."
2. **Result hook** — "30 seconds lang. Tingnan mo 'to." (show immediately)
3. **Identity hook** — "May negosyo ka at wala kang marketing budget?"
4. **Curiosity hook** — "Ito ang tanong na hindi mo pa naitatanong sa AI."

Never open with "Kumusta" first — hook lands in second 1, opener comes after.

Boost Strategy

Rule: Only boost posts that already have strong organic saves or shares — proven signal = lower CPM.

Process: Post organically → wait 24–48 hours → if 50+ saves OR 200+ shares → boost it.

STAGE	BUDGET	WHEN
Test	Php 500–1,000 / day	First boost — prove the format
Scale	Php 2,000–3,000 / day	Format proven, engagement positive

TARGETING

Location: Philippines · Age: 25–40 · Interests: technology, online business, productivity, freelancing, entrepreneurship

First boost candidate: "5 Libreng AI Tools Para Sa Inyong Negosyo" — 60–90s screen record + Taglish voiceover. Highest shareability + lowest CPM format.

Platform for first boost: Facebook Page (convert profiles first). TikTok Promote as secondary once organic is performing.

Engagement Tactics

- 1. **End every video with a YES/NO or CHOICE question** — "Claude o Gemini — alin ang subukan mo muna?"
- 2. **Reply to every comment in the first hour** — TikTok/IG reward fast early engagement
- 3. **Pin first comment within 5 min** — bonus tip or tool link
- 4. **Post times (PHT):** TikTok = 8–10 PM · IG = 7–9 PM
- 5. **Share to Facebook Stories immediately** after posting Reels

KPIs to Track Weekly

METRIC	TARGET MONTH 1	TARGET MONTH 3
Followers — TikTok	100–500	2,000+
Avg video views	500–1,000	5,000+
Watch completion rate	>40%	>55%
Saves per post	20+	100+
Comments per video	10+	30+
Profile visits	100+	500+

Pull weekly: TikTok Creator Center → Analytics · Instagram Professional Dashboard → Insights. Share screenshots with Jeff.
